HUDY PHILLIPS SCREWDRIVER

#38 9102 OPTIONAL POWER PACK PRO

The optional Power Pack Pro includes all indicated electronics specially-designed for the M18MT to enable the car to operate. The Power Pack Pro includes Super Size 300 motor with integrated capacitor board, micro speed controller XMC300R with reverse, high-quality micro servo with metal gears, and a 6-cell micro battery pack containing high-performance 2/3A NiMH cells. It is very easy to install all the electronics on the M18MT chassis. This Power Pack Pro is included in the M18MT kit with part number #380691. All electronics feature universal connectors; only 3 connections are required to operate the car. (Note that a transmitter and receiver are not included in the Power Pack Pro, and are required for operation.)

REQUIRED FOR OPERATION
