

## #303071 BELT TENSIONER SET (T2'007) (T2'008)

The belt tensioner allows you to easily adjust the tension of the belt depending on its wear rate. The belt tensioner offers a wide range of adjustment for even the most extreme racing conditions.

1

### UPPER POSITION

Use when the belt ages to help prevent the risk of belt twisting.

2

### MIDDLE POSITION

Use when the belt is worn and risk of twisting is high.

3

### LOWEST POSITION

Use with very old belts to prevent belt twisting, or if the belt is at risk of coming off of the pulley.
