

# XRAY NT1

## INSTRUCTION MANUAL

### #336170 BRASS CHASSIS WEIGHT FOR NT1 30g

XRAY developed this special 30g brass chassis weight for serious racers who are trying to get maximum performance from their NT1. The weight is designed to fit in the center of the chassis to get the best possible balance of the car. The weight is secured to the chassis with two screws so the weight cannot move or become out. Fits both standard 3mm and optional 4mm chassis.
