

XRAY T3

INSTRUCTION MANUAL

#302047 T3 ALU LOWER SUSPENSION BLOCK

The 1-piece aluminum suspension holder is a direct replacement for the separate rear holders (#302046) of the front suspension. The 1-piece aluminum suspension holder reinforces the chassis and prevents chassis injury in serious crashes. The optional separate rear holders #302046 T3 ALU LOWER SUSPENSION HOLDERS can be used to gain more steering but will provide less stiffness.
