

#376215 CENTER GRAPHITE SERVO MOUNT + ALU STANDS - SET (MID-SIZE)
#376216 CENTER GRAPHITE SERVO MOUNT + ALU STANDS - SET (MICRO)

INSTRUCTION MANUAL **XII**

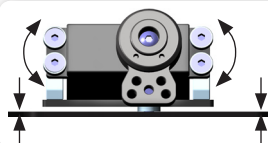

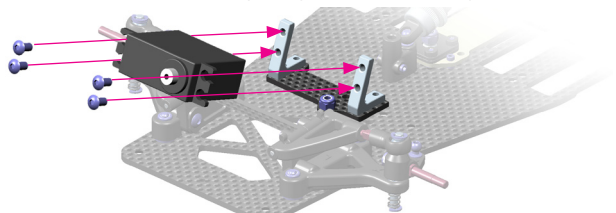

To eliminate chassis tweak caused by improper servo mounting, XRAY offers an optional Tweak-free Servo Mount Plate which is centrally mounted along the chassis centerline while the servo is mounted independently on aluminum stands on the graphite servo mount plate. This design ensures that the servo is mounted independently of the chassis and will not produce any unwanted chassis tweak.

#376215 - Center Graphite Servo Mount + Alu Stands - Set (Mid-Size).
Use the servo screws and shims from the standard kit for servo mounting.

#376216 - Center Graphite Servo Mount + Alu Stands - Set (Micro).
Use the 3x6 screws from the package for servo mounting.

The graphite servo mount is mounted independently from the chassis to the chassis stays flat and untweaked.
