

# XRAY XB4

## **TIP** XB4 ANTI-ROLL BAR 2.0 MM

To fit the new optional #362480 Anti-Roll Bar 2.0mm a slight modifications has to be done. We suggest you to use a small round file and grind the slots on the diff bulkhead where the anti-roll bar sits to fit it properly. Next step is to redrill the hole for anti-roll bar in the #303431-K with the 2.0mm drill.
