

XRAY

1/10 LUXURY ELECTRIC TOURING CAR

MADE IN
EUROPE

NEW 2014

"At the core of every XRAY car is our passion for high performance racing cars, dedication for absolute perfectionism, smart design approach and heritage of our extensive experiences and achievements. Creating an all-new platform meant a complete re-engineering and redesigning majority of parts on the car. Following thousands hours of track-testing with the factory team around the world and thousands of hours in R&D and prototyping have resulted into an outstanding racing car, a masterpiece manufactured and machined in-house in Europe, with the extreme precision you would expect from XRAY. I am very proud to present you the all-new T4."

Martin Hudy
Martin Hudy XRAY T4 DESIGNER
