

XRAY XB2

GEAR BOX VS DIFF - GUIDELINE

Follow this cross-reference table to use the latest LCG Ball Diff or Gear Diff in older versions of the XB2. Installing the latest differentials into older transmissions will require additional shims and possibly changing the driveshafts to match outdrive length and pin diameters. Please refer to the table below to identify the necessary parts based on the XB2 model year and transmission case.

		GEAR BOX								
		XB2C'16	XB2D'16	XB2C'17	XB2D'17	XB2C'18	XB2C'19	XB2D'19	XB2D'20-21-22	XB2C'20-21-22
		#323010	#323011	#323014	#323016	#323015	#323015	#323016	#323018	#323019
DIFF	#325003 Ball Diff	<div>+</div> <div>#325391 Alu Shim 10x12x1mm (2) #325321 Rear Drive Shaft 67mm with 2.5mm pin(1)</div>				<div>+</div> <div>#325391 Alu Shim 10x12x1mm (2)</div>		<div>✓</div> <div>Direct Fit</div>	<div>✓</div> <div>Direct Fit</div>	
	#324902 Gear Diff	<div>+</div> <div>#325391 Alu Shim 10x12x1mm (2) #325321 Rear Drive Shaft 67mm with 2.5mm pin(1)</div>				<div>+</div> <div>#325391 Alu Shim 10x12x1mm (2)</div>		<div>✓</div> <div>Direct Fit</div>	<div>✓</div> <div>Direct Fit</div>
