

## #30 6170 STICKPACK MOUNTING BRACKETS (SET)

**BAG**  
#30 6170

30 6170  
30 9346

STICKPACK MOUNTING BRACKETS- SET  
HEX SCREW SFH M3x12 (10)

30 6110\*

BATTERY MOUNT STRAP FOR 3 BATT. - SET

**NOT INCLUDED, USE FROM YOUR CAR**

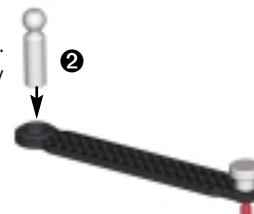

# ASSEMBLY INSTRUCTIONS

1. Press out the battery mount straps from the standard battery holders you use on your car.

2. Press the shorter battery holder mount's ball end into the plastic hub; it will snap into place. Once installed, the ball end should pivot freely in all directions.

SFH M3x12

3. Insert the screw #30 9346 into the holes on the chassis.

4. Thread short stands onto the screws.

5. Place the graphite brackets onto the screws as shown.

6. Mount the separate shorter threaded battery holder onto the screws. Orient the mounts so the battery will fit in the cutouts.

7. Mount the ball-end battery holder mounts (with battery straps) onto the screws. Orient the mounts so the battery will fit in the cutouts.
