## 2-IN-1 CONCEPT.

You now have the choice to use either a short battery pack -or- saddle packs; the new XB4 is designed to fit both perfectly! With the all-new 2-in-1 concept, you can easily transform the saddle pack configuration into a short pack battery configuration and place the motor either frontwards or rearwards... all parts for the transformation are included.

- **2 pairs of central drive shafts**
- **2 pairs of front and rear top decks**
- **1 universal central motor mount**
- **1 universal chassis**
- **1 rear chassis brace**
