Premium materials
Smart design

XRAY revolutionized the off-road category years ago with the introduction of the first XB8 which set new trends and standards for premium quality, reliability, service life and of course performance. Since the first XB8, the XRAY off-road racing cars have received honors and accolades across the globe, including multiple 'Car of the Year' awards from RC car magazines around the world as voted on by consumers, and countless victories at all levels of racing, including multiple National and European Championship titles.

Over the years, XRAY off-road cars have established new benchmarks for premium quality, reliability and performance; traits which have won XRAY the loyalty of customers around the world.
